Dear PCC Schrack:

Harry Fulwiler, LITPC Treasurer suggested I contact you regarding my husband, PDG Harlan E. Bowser, Sr., (age 82) lions pins. He said you might be able to put a note on the website. Harlan has complete sets of some states plus single pins, and some very old pins. He also has parts and pieces to repair pins. I know there must be over 6 or 7 thousand pins. I realize that some sets like his complete set of Texas pins set is worth a lot of money alone, but I am willing to sell all the pins for \$1.50 each including the sets. I think that would be a fair price considering some of the sets that he has.

My condition for selling would be that I sold them all at once and not piece meal them out a few at a time. Our age, we would have no way to deliver the pins nor the money to shipped them. I would pray that some lion will be interested and will be willing to come to Kansas to collect them.

I know Harlan enjoyed his many years of buying and trading pins and he could tell you just about every pin that he had and the makeup of the pin by memory but, I regret to say that most days he doesn't remember at all.

If there is some way that you can help me on this I certainly would appreciate it.

We still attend a great Lions Club in Everest Kansas and I still do what I can to serve. My father Rev. Newton Leon Haney, was the 3rd District Governor of South Dakota in 1930. I have two large pictures of he and my mother seated with Melvin Jones at a convention banquet in New York. I regret one day my children will just throw them away because they will mean nothing to them.

Kindest regards,

Lion Betty Jo Bowser,
