

## HAWAII - MD 50

**HAWAII** is the most recent of the U.S. states (August 1959) and is the only state made up entirely of islands. It is in the northernmost island group in Polynesia, which is in the central Pacific Ocean. It is blessed with warm, tropical weather most of the year with an abundance of beautiful beaches. Hawaii has over 1 million permanent residents with thousands of tourists and U.S. military personnel. **Honolulu** is not only the capital on the Island of Oahu but is also the home of the first Lions Club in the state.
