

# Bird Series

January 2009

## GUIDELINES GOVERNING THE BIRD PIN SERIES

1. The Series will include all pins issued on or after 1 January 2009.
2. All pins in this series will be included on the LITPC website. You will be able to download the images that you wish for possible development of your own catalog.
3. The pins in this series will be limited to those which feature a bird or birds as the primary subject or purpose of the pin. Pins which feature so-called auxiliary items like bird houses, bird feeders, etc., will NOT be included in this series.
4. Only pins that are made by an LCI authorized pin maker will be included in this series.
5. There are no objections to the use of cartoon type pins as long as they are not offensive to most people. However, should you decide to use a cartoon character which is registered or which has copyright restrictions, it will be YOUR responsibility to obtain the appropriate permission and to show evidence thereof before it will be included on the LITPC website.
6. We urge you to avoid the issue of large numbers of pins in a single set. Any thing greater than 8 pins is considered to be excessive. Obviously, we will not reject sets that exceed the recommended maximum of 8, but you should know that this is probably the one single, greatest negative expressed about past series. Several have become so discouraged, they have chosen to no longer participate because of the hardships of collecting these big sets. If you have a subject that would cause more than 12 pins to be issued, it would be better for all concerned if you would break the pins into two or three separate sets.
7. When you organize a “combine” or group of Lions to issue a set, we urge you to include only pin traders who are willing to trade their pins. Including non-pin traders merely to fill the gaps in a set invites problems for those trying to collect all the pins. Included in this category are those so-called pin traders who never seem to attend any of the established swaps or attend the LCI conventions. Invariably, these folks also refuse to trade by mail and that makes it next to impossible to obtain their pins.
8. It is strongly recommended that once a particular bird is featured, you consider using another subject. Obviously, some birds like Cardinals and Bald Eagles are much more popular than others. However, a series dominated by a relatively few birds would make for a boring and probably short-lived series. There are thousands upon thousands of birds to use on pins. Hopefully, you will agree and we will be spared the proliferation of only a few.
9. Send all pins to **PCC Bill Smith, 3643 Osborne Drive, Warrenton VA 20187**. Please indicate whether you wish to trade, sell, or have the pins returned. If it is the latter, you will need to provide for adequate postage.
