

## MD "A" - ONTARIO

**ONTARIO** is in east-central Canada with a population of 12.9 million residents. It is often divided into two basic regions, i.e., Northern Ontario and Southern Ontario where the majority of the population resides. English is the primary language which reflects its European heritage. Because of the massive common border with the U.S.A., there is an extremely close relationship between the two. The capital is Toronto and **Windsor** is home to the first Lions Club organized in the province in 1920

There is a lighter color of this pin that was illegally made by a Canadian Lion.

Although all are not shown, it is reported that there is a gold and silver of each of the Mini Lions pins issued for years 1976 through 1989

MDA began issuing Lioness pins as part of their regular set in 1981. There were no Lioness pins issued with the first five sets. Please see the Miscellaneous Section for further information on this matter.

NOTE Several issues are depicted as being a variations, as shown above for the 1985 issue, because the object on the pin is upside down or otherwise skewed. However, there is evidence that some of this has been caused by the object moving on the pin before the glue had dried.

\* NOTE: There are numerous variations of the 1960 wood cut pin. This is caused by the texture and color of the wood that was used in the production of the pins. Although the pins would indicate that they were issued by MD-A, they actually were issued by an individual District Governor to give him some trading material during the LCI convention in 1960.

Origin  
Unknown

These three pins were made by individual Canadians and traded at International Conventions as Canadian pins.

Unknown

1996 Origin Unknown

This pin was given by clubs throughout Canada during the 1950's to their members who were attending International Conventions. Most delegates would then have their club name engraved on the pin under the L above the word Canada, as shown on the right above. More of these with club names can be found than those without, as shown on the left. The image at the right of each pin is magnified to show the bar where the club name was to be engraved.

MDA began issuing Lioness pins as part of their regular set in 1981. There were no Lioness pins issued with the first five sets. In 1981 a decision was made to go back and issue a Lioness pin for each of the first five Maple Leaf sets. Unfortunately, not many made the so-called trading market. As a matter of fact, we are only aware of about 15 sets and it would appear that most pin traders will not be able to add these 5 pins to their collections. Accordingly, we have decided to show them in this Miscellaneous Section in the event you might be fortunate to obtain one of more of them. .
