

Pictorial Catalog of Lions Trading Pins

Motorized Land Transportation.

Issue No. 6 Motorized Land Transportation 2008

To avoid the costly reissue of the several pages from Update No. 5 on which I duplicated pins, I am issuing this single change page. Beginning on page 5-5, Update No. 5, you will need to cross out or otherwise obliterate item 681. The pin depicted as 681 belongs to Lion Ken Jones and is shown as item 0630 on page 5-1. Likewise on page 5-15, you will need to obliterate items 0811, 0812, and 0813 at the bottom of the page. These three pins were previously shown as 0608, 0609, and 0610 on page 4-11.

It would probably be best if you removed page 5-14 in its entirety since items 0788 through 0797 were previously shown as items 0429 through 0438 on page 3-5. To preserve the three items (0798, 0799, and 0800) at the bottom of page 5-14, I am showing these items below.

You will need to obliterate item 0857 on page 5-19 since it was previously shown on page 5-5 as item 0680.

You will notice that I have picked up all the duplicated numbers in the beginning of this Update No. 6 in order to account for the total number of pins that have been issued in the series. I once again want to apologize for any inconvenience this has caused in your attempt to collect the pins in this series.
